

Measuring Window "WIN294"

compliant with DVGW W294-3(2006), ÖNORM M5873 and DIN 19294

GENERAL FEATURES

Properties of the WIN294

The measuring window WIN294 is used for plug-in sensors in certified equipment for water purification compliant with W294-3(2006), ÖNORM M5873 and DIN 19294. The window has a G1" thread for connection to the purifier. The sensor is fixed with a consigned union nut. Specifications are customizable to different purifying systems.

Measuring window WIN294 is a required accessory for sglux "UV-DVGW" and "UV-ÖNORM" sensors or other plug-in sensors according to DVGW 294-3(2006), ÖNORM M5873 and DIN 19294.

SPECIFICATIONS

<i>SPECIFICATIONS OF THE WINDOW</i>	Parameter	Value
	Dimensions	please refer to drawing below
	Window Material	SQ1
	Pressure Resistance	16 bar
	Window Size	23 x 5 mm

<i>SPECIFICATIONS OF THE STEEL BODY</i>	Parameter	Value
	Material	1.4404
	Length	65.4 mm
	Wrench Size	32 mm
	Front Thread	G1"
	Thread For Union Nut	G7/8"
